

## 6270 TouchCenter GRAPHIC TOUCHSCREEN KEYPAD

The 6270 TouchCenter keypad makes it easier than ever for your customers to take advantage of their security system features. Even the most advanced functions are a snap with graphics and menu driven prompts guiding the user every step of the way. The intuitive graphical touchscreen display provides easy centralized control for a variety of daily tasks for systems in homes or businesses.

It also keeps the users in touch, with a built-in message center that lets them record and playback messages for one another. Best of all, you have an opportunity to offer your customers a unique new product at a price they can afford.

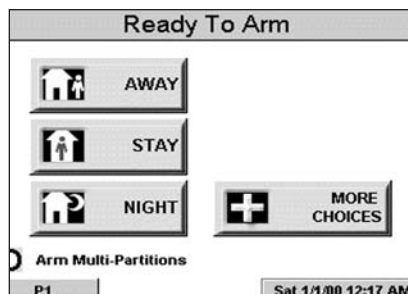

## FEATURES

### Security

- Arm System
  - Away
  - Stay

## GRAPHIC TOUCHSCREEN KEYPAD

### FEATURES

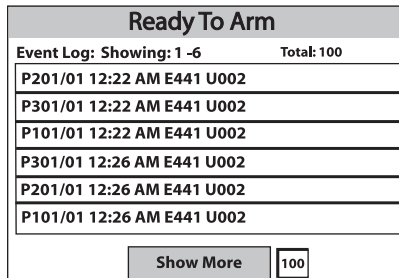

#### Event Log

TouchCenter conveniently displays the most recent actions involving system use. A press on the touchscreen is all it takes to access the event log, letting users easily:

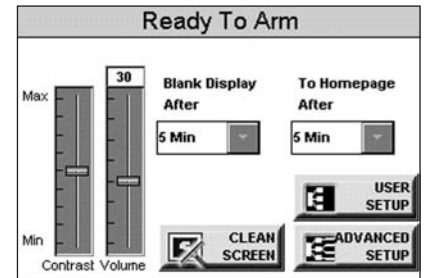

- View when the system was used and who used it
- Track when workers and temporary guests use the system
- Keep tabs on family members (e.g., checking if a child has armed the system upon returning home from school)
- Utilize the TouchCenter as an effective business management tool (e.g., viewing openings and closings)

#### Keypad

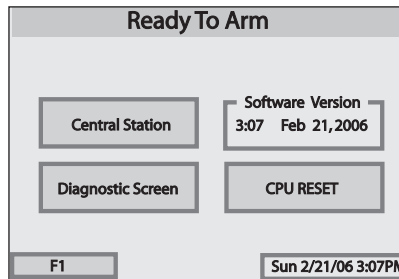

- Emulation of standard 2x16 alpha LCD keypad display
- Diagnostics allows testing of:
  - LCD display
  - Audio
  - LED indicators
